DoCENT in a nutshell

DoCENT is an Erasmus+ funded project that aims at bringing together Initial Teacher Education (ITE) providers, research centres and companies in the sector of educational technology (EdTech) to **boost digital creativity** in the field of teacher education.

Activities and tools

Competence framework
Guidelines and policy
recommendations for
teacher educators

Training
MOOC
Open Educational
Resources

Developed
collaboration
between the
stakeholders

DoCENT intends to bridge **different constructs**, i.e., **digital technologies, creativity and pedagogy**.

Objectives of the model

1. Raising teacher educators' awareness on creative digital teaching strategies
2. Further developing teacher educators' competences in terms of how to use and apply digital technologies for creative teaching
3. Accompanying teacher educators in the application and validation of their learning scenarios

This project aims to embed **creativity in the digital culture** while fostering students' **motivation, imagination, curiosity and collaboration**.

In the framework of this project, we are developing creative digital teaching strategies, practices and tools for **teacher educators** to support their work and facilitate the creation and implementation of innovative teaching methods ■
